

Company presentation

This must be inside.

eaw Relaistechnik for companies

POWER

That's behind eaw.

- **Development, production and sales of relay technology**
- **Maximum quality and safety underpinned by decades of experience**
- **Fast and flexible development of innovative relay technology according to customer requirements**
- **Trusting partnerships based on collaborative dialogue**

Parts of something big.

Switch points of mobility.

Everyday components.

Our product groups at a glance.

- Thermal switches and -sensors
- Relays for control- and monitoring technology
- Test stands
- Power contactors

Thermal switches and -sensors.

- Thermal switches
- Multifunctional switches
- PTC starting devices
- Bimetallic jumping discs

Relays for control and monitoring technology.

- RELOG switching relays
- Time relays
- Elektronik measuring- and monitoring relays
- RA70 signal relay
- Special relays

Test stands.

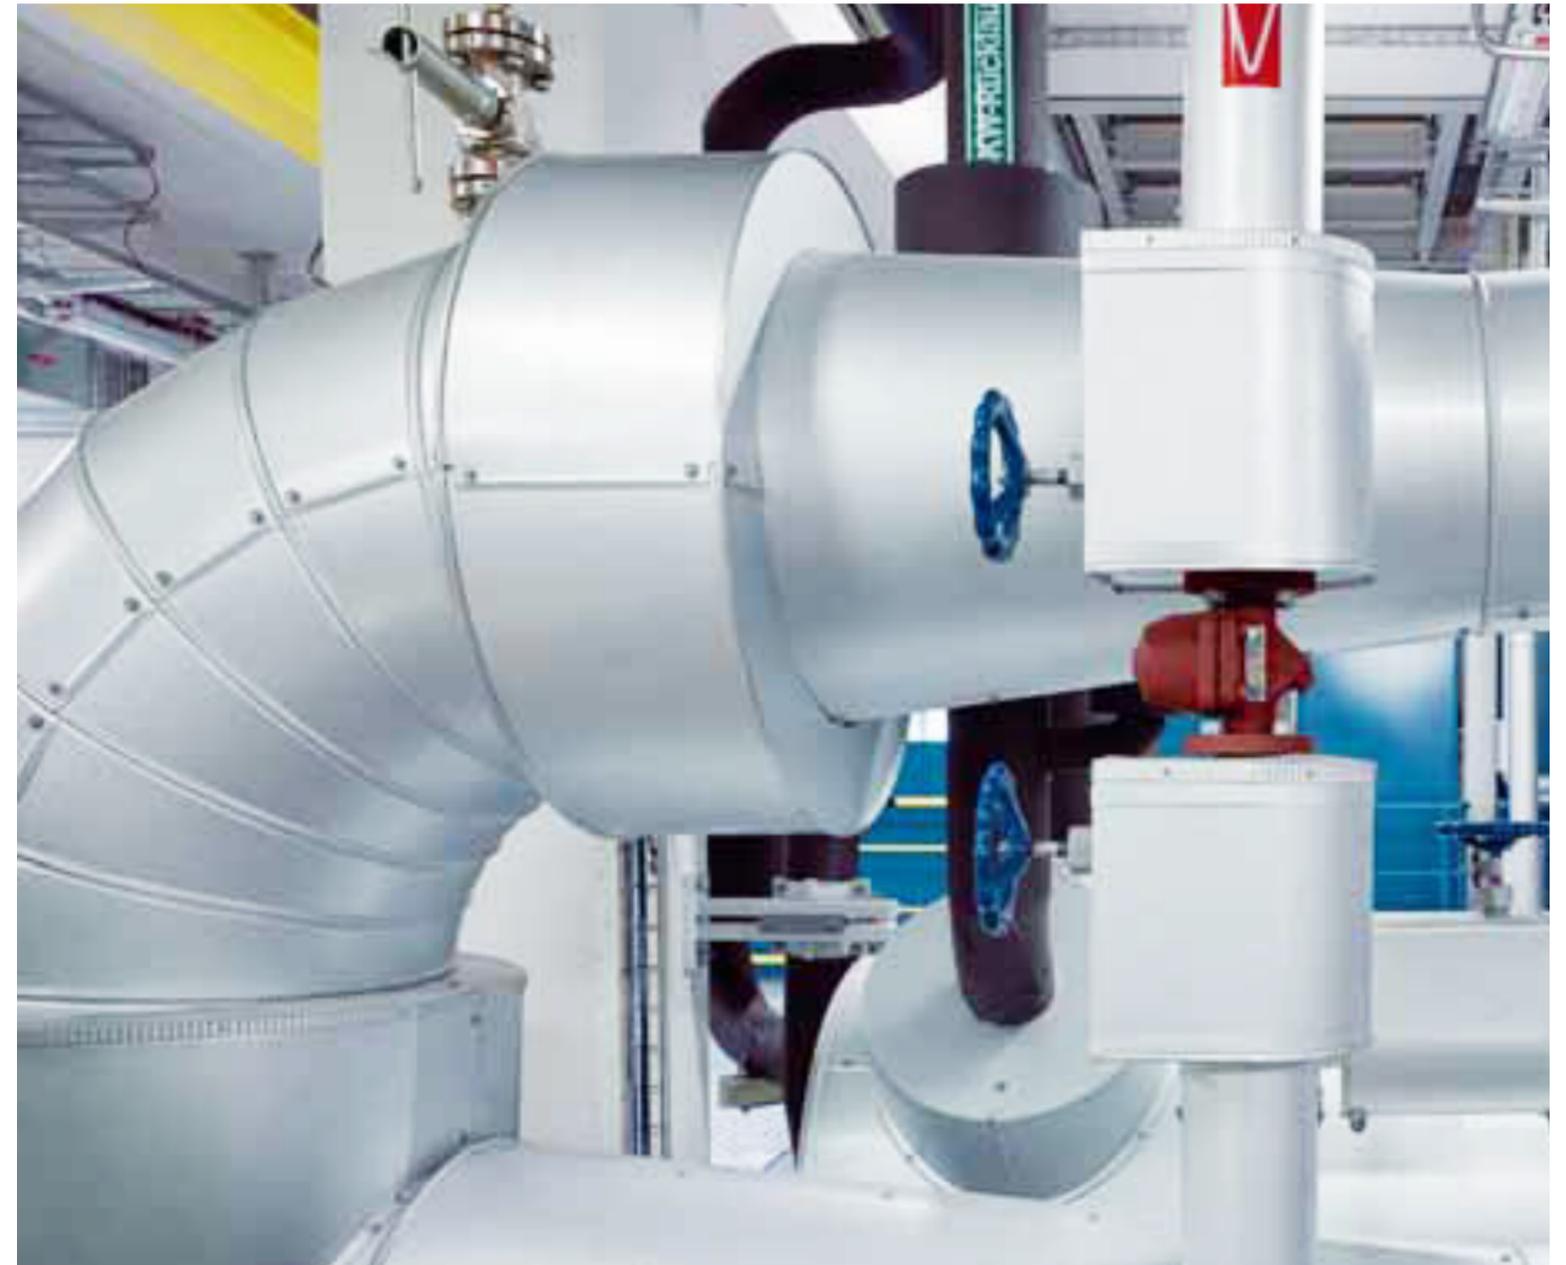

Power- and function test stand for thermal relays (LFTR1)

- Application-orientated test environment for thermal relays
- Incoming goods inspection
- Functional testing
- Service life testing

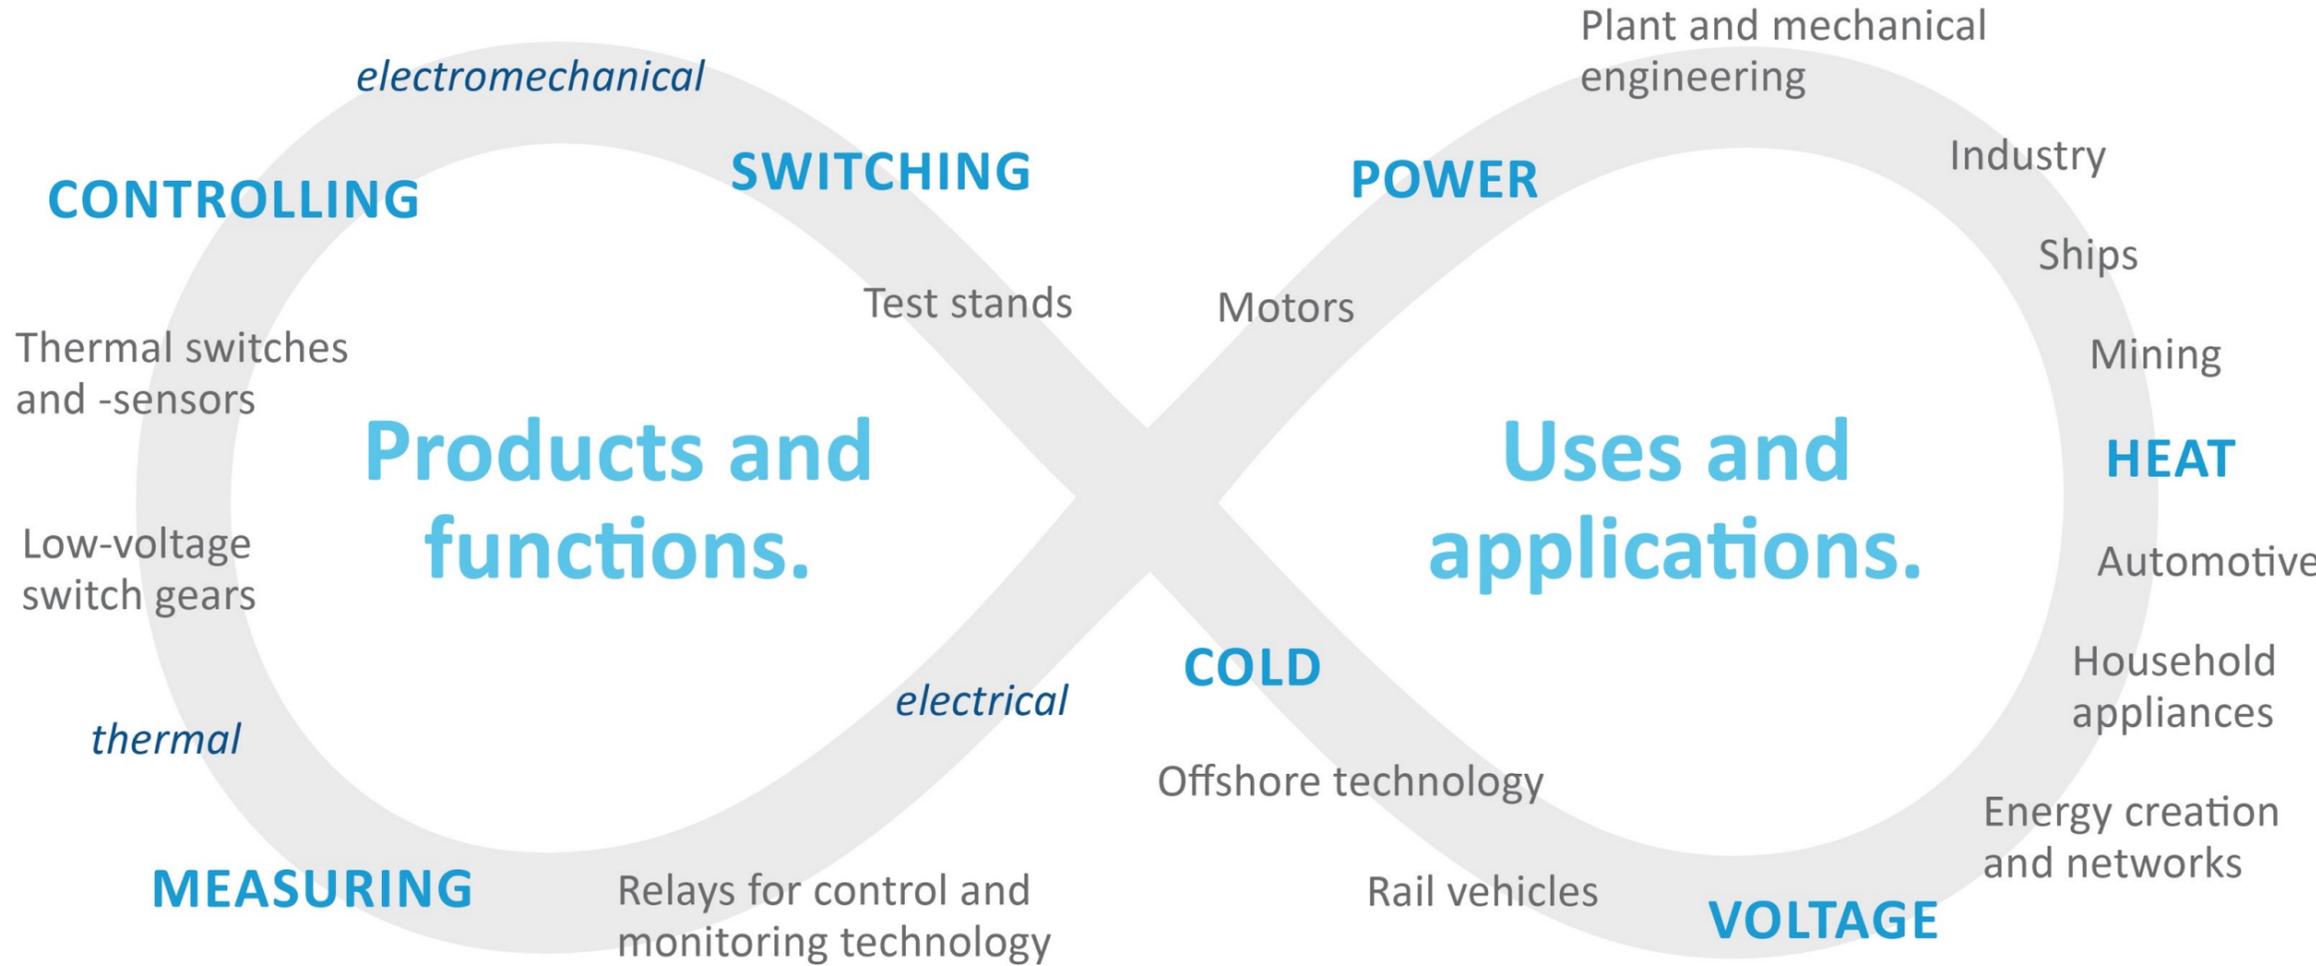

Power contactors.

- Power contactors with vacuum switching system
- Auxiliary contactors
- Condenser contactors
- Thermal overcurrent relays
- Low-voltage switch gears

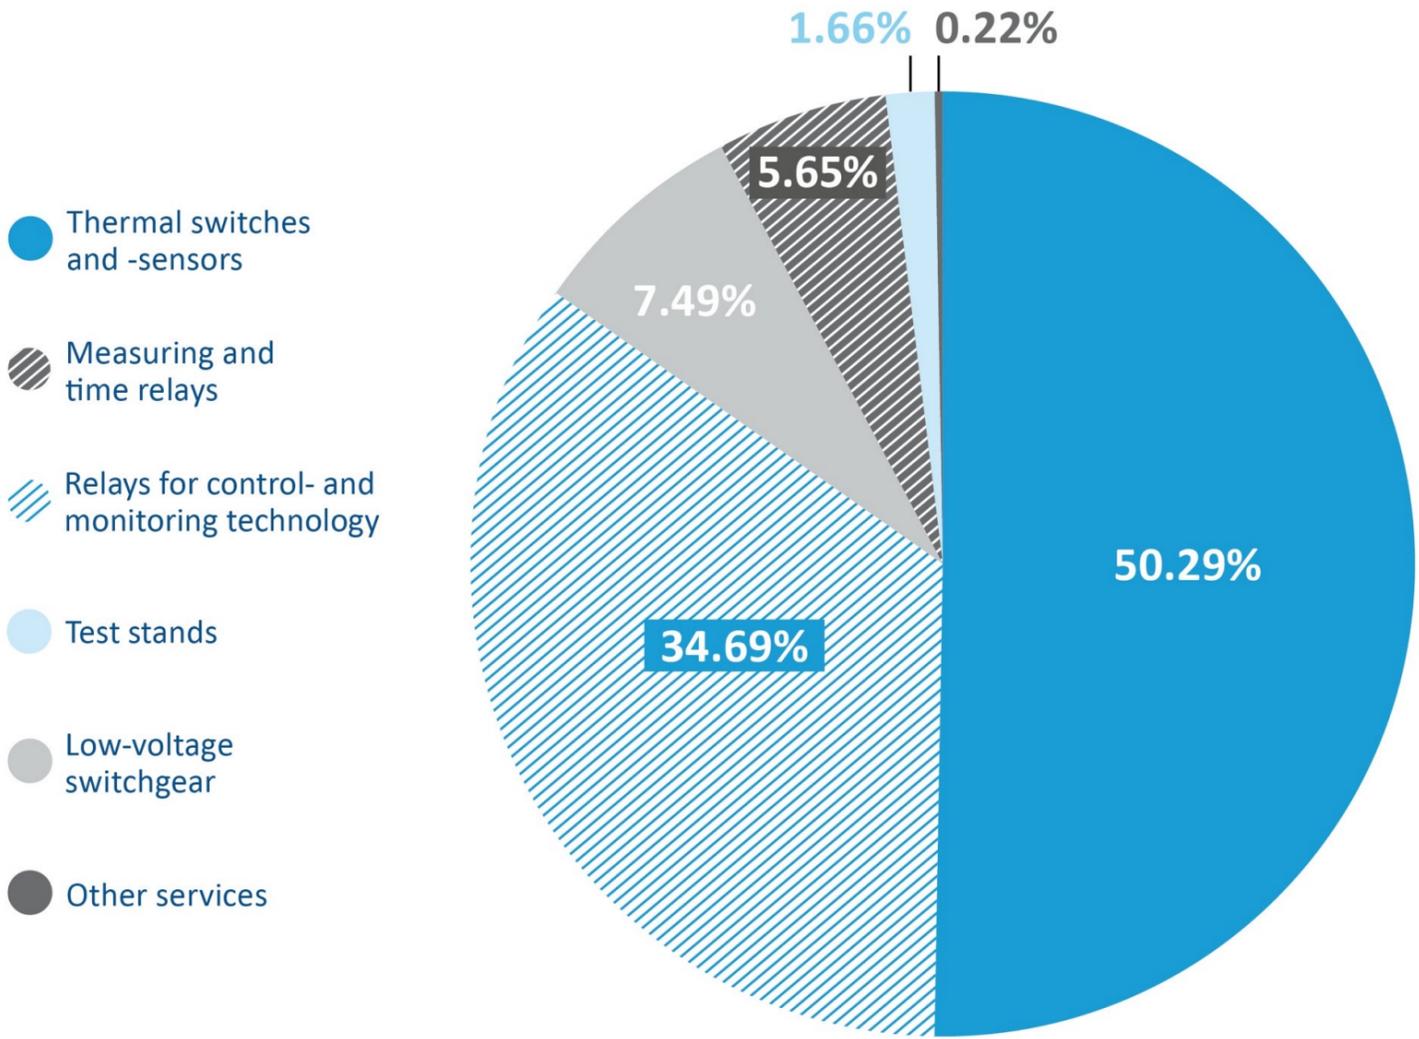

Endless possibilities.

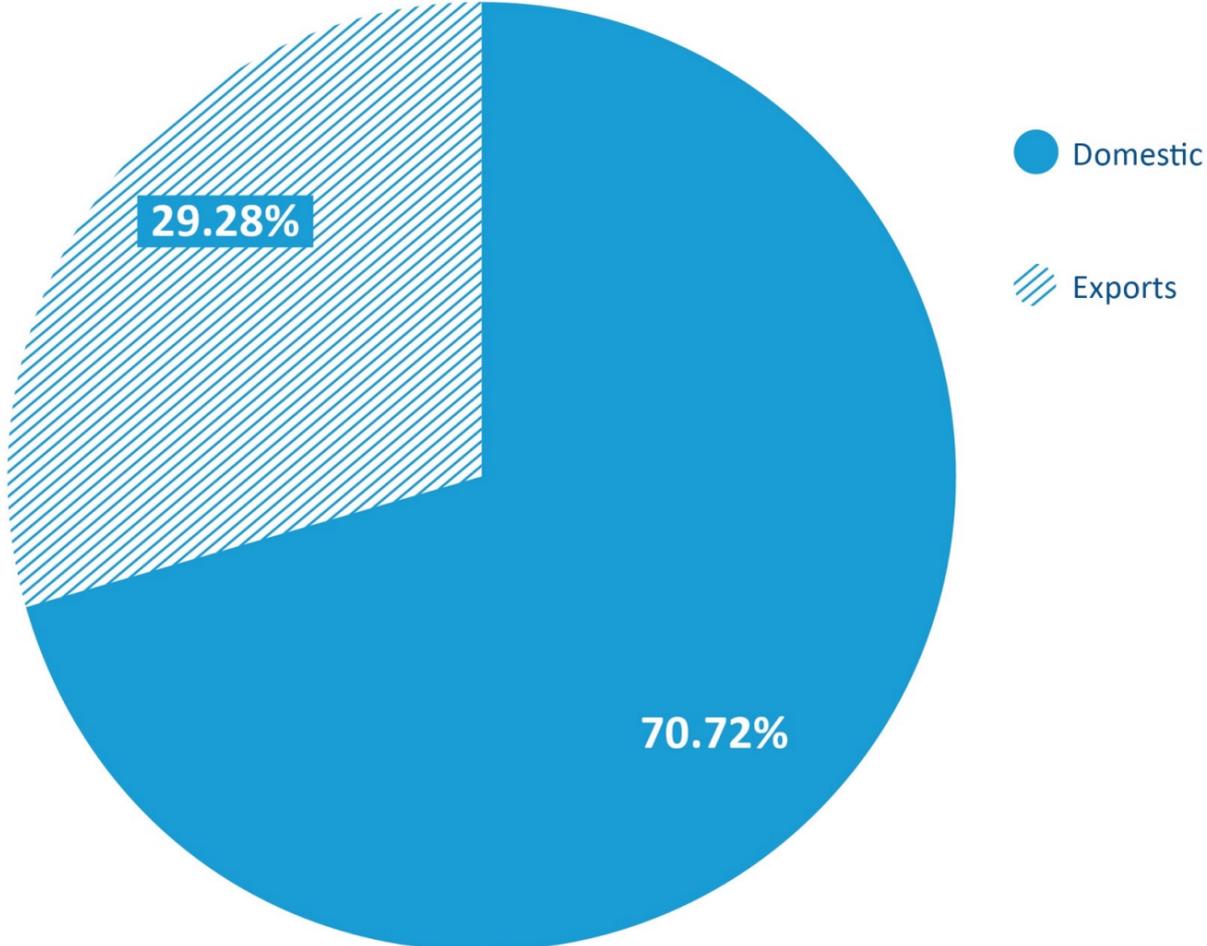

Here's how it all breaks down.

Sales share by product groups

Domestic and export sales share

We set standards. And new impulses.

- We develop in dialogue
- Quick and flexible switching
- Trusting cooperation

Last but not least. Our other services.

- Engineering based on your specifications
- Solutions, that have never seen before
- Support with auditing and tendering
- Subcontracting
- Your requirements?

Made in Germany

- 90 years of experience with switching relays
 - From development and production through to sales
 - Our new company headquarters
- Dorothea-Erxleben-Str. 4
15711 Königs Wusterhausen

A long history.

- 1926** Foundation of the Elektro-Apparate-Werke Berlin- Treptow by AEG and start of relay production
- 1936** Complete programme of electromechanical protective relays
- 1949** Transfer of the eaw into a Soviet joint stock company
- 1954** eaw becomes a state-owned company
- 1963** Start of production for starting- and thermal protective devices
- 1966** Start of production for the RELOG switching relay
- 1974-87** Expansion of production by contactors and further development of existing products
- 1990** Privatisation and foundation of eaw Berlin GmbH
- 1993** Foundation of eaw Relaistechnik GmbH
- 2003** Start of the partnership with Pepi® Portage Electric Products, Inc., USA
- 2007** Integration of eaw Relaistechnik GmbH within Pepi®
- 2013** Production of newly developed RELOG switching relays
- 2015** New development of the „temperature controller for every operating environment,,
- 2021** Takeover of eaw Relaistechnik GmbH by eaw Verwaltungs GmbH from the Portage Electric Europe BV, therefore the eaw Relaistechnik GmbH is once again an independent, medium-sized German company
- 2022** Opening of the new company headquarters

Used everywhere.

Long export tradition

Quality also for China

Prepared for the future

Just a click away: For customers around the world.
